The Bay City Recyclables are Back!

Please join us in the community room for lots of fun and laughs with The Bay City Recyclables! They are a traveling group of senior citizens who enjoy entertaining people. They volunteer through the Bay City Players theater group and we always have such a wonderful time when they come.

They are now semi-retired from the entertainment business so we are very grateful that they have decided to still keep us as one of their stops.

They enjoy coming to see all of you as much as you enjoy seeing them.

They will be here on **Tuesday, February 19th at 3:00 pm.**

If you haven't had a chance to see them before, please stop down and see them now.

We always have such a wonderful time when they come to visit.

Maintenance Updates

- Work orders need to be put in to the office. You can either call, stop by the office or fill out a maintenance request form that is located on the rent drop box.
- Please do not park the front end of your vehicle over the curbs of the sidewalks and the islands. If you are over the curb, we cannot get our equipment though or clear the walks properly. This can cause icy spots on the walk that we can't get to. Once you move your car, someone can slip on the ice. Let's work together to keep everyone safe this winter season.
- Please be reminded that all trash belongs in bags. The bag needs to be tied securely and placed properly either down the chute or in the barrels.
- Be sure to pick up after your pet when you walk them. Also, pets should not be relieving themselves in the planting areas. Although we do not have a designated pet area, please be considerate of others coming and going from the community. Urine on the main walkway is unsightly for our residents and guests. Taking your dog our one of our side doors is best.
- ***If you have a health emergency, you or your family members should press your personal help button or call 911.***
- ***If there is a fire emergency you should call 911.***
- ***If your smoke detector is going off because of burned food and it is after hours, please call 911 to let them know. The fire dept. will still respond to reset your alarm but they won't need to send the big truck and a slew of volunteers. Thank you for your continued cooperation.***

You can always call (989) 892-6906 and request an appointment at any time – if I'm not here, leave a message and I will return your call as soon as I return. You can also leave me a message in the mail slot outside the Theater Room door; I will contact you as soon as I am able.

Life Without a Car, Part 3

This is the third article in a series of articles I have been writing about living life without a car when my car was in the shop for some minor repairs. Last month I shared my experience using Lyft for transportation. This month I am going to introduce you to Shipt.

I first learned about Shipt a couple of years ago when visiting my older sister in Florida. Because I have unique dietary needs, the day I arrived she informed me that we needed to go grocery shopping to make sure we had enough of the right kinds of food. That's when she pulled out her phone and essentially said, "What should we get?"

I was a bit confused. Apparently, we weren't going to go to the grocery store to shop, we were going to "shop" with her phone using Shipt. Shipt is an on-demand grocery shopping service that you access using an app on a smartphone. You select what you want, place an order, someone on the other end claims it, goes to the store and does the actual shopping for you, and when done brings the groceries to wherever you are, usually at your home.

I watched this process unfold utterly amazed. After we filled our online shopping cart with what we wanted, my sister placed the order and selected a delivery time from the list of available times presented, all of which were just a few hours away from the current time. Within about an hour of the delivery time, she received a notification on her phone that someone had claimed her order that included the name and photo of the person who would be shopping for us.

When that person began shopping, she sent a text directly to my sister letting her know and asked her if she wanted to add anything else. As the shopping progressed, if the store didn't have an item my sister would get a text from the shopper with a recommended substitute that my sister could accept or reject. She even received a photo of the bananas the shopper planned to buy so we could make sure they were as ripe as we had requested.

It took the shopper about an hour to finish shopping. Before she left the store, she sent one last text letting us know her estimated time of arrival. When she arrived, my sister invited her in. The shopper placed the groceries on the counter then quickly went on her way. I could hardly believe it. We went grocery shopping without leaving my sister's house.

Flash forward a couple years. I am without a car and as luck would have it, I am of course out of food. That's when I remembered my experience at my sister's. Time to fire up Shipt so that I could go grocery shopping without a car. Next month, I'll let you know how it went.

Life Without a Car, Part 4

SHIPT

This is the fourth article in a series of articles I have been writing about living life without a car. Last month I introduced you to the online, on-demand shopping and home delivery service Shipt. This month I am going to share my experience using it.

As you might recall, when I took my car to the shop I was completely out of groceries. “No problem,” I thought. I’ll just use Shipt. After my experience at my sister’s, I had already downloaded the app on to my iPhone from the App Store and signed up for the service. Where I live there are two stores Shipt does business with: Meijer and Target. I chose Meijer because the Meijer closest to me has more variety than the closest Target store.

I found that using the app was pretty easy. Essentially, all I had to do to select an item to buy was to tap its picture. After selecting all the items I wanted, I selected my desired delivery time, which completed my purchase. Shortly thereafter, I received an email confirming my order and soon after that, was notified who my shopper was that included her picture. About a half hour before my scheduled delivery time, I received a text message from my shopper that she was about to start shopping.

While my shopper shopped, she periodically sent me text messages when an item on my list was not available and would suggest substitutes. For example, if the store did not have the specific brand of mild salsa I requested she would suggest a different brand of mild salsa or the same brand but medium rather than mild. I could then text back with my decision, which could be to remove salsa from my list rather than accept a substitute. After my shopper finished shopping, she sent me a text that she was in the checkout line and would soon be on her way to my house.

When she arrived with the groceries, everything was in order. There were no missing items, the eggs weren’t broken, the cold items were still cold and the frozen items were still frozen. Overall, it was a very positive experience. From a convenience standpoint, it was a home run. My primary complaint is that for my liking there were a few too many items from my list that weren’t available for which I had to select a substitute. That was a bit frustrating. However, given that I was without a car, it was sure nice not to have to go without groceries even if I had to buy a few different items than originally intended.

Next month, I will write in more detail on how the app works so if you decide to try it, you will have a better understanding of how it works.

Smart Home Setup

Smart Home Setup

Improving safety and comfort with smart home and IoT (Internet of Things) technology

Introduction

The Internet of Things, or IoT, is a category of new technologies that have experienced significant growth in the consumer market over the last several. They are generally small, intelligent, and networked devices that integrate with otherwise non-digital items. Smart watches, IP security cameras, and self-driving cars all fall under this general category, as they bring everyday objects “online”. Smart home technology is the application of IoT devices to improving the comfort, convenience, and safety of the user’s home. The smart home configuration outlined below is an example of a simple setup that will demonstrate the uses of these technologies in apartment and senior living.

Devices

- Amazon Echo Show (\$180): voice and touch controlled smart home hub with a tablet-like screen that serves as the command center of the smart home
- Amazon Echo Dot (\$40): small voice controlled home assistant, and can be used in conjunction with the Echo Show
- Amazon Fire TV Stick (\$40): turns any TV into a Smart TV, allowing the user to play videos and music from the internet through their TV
- Amazon Cloud Cam (\$100): cloud-based security camera that can be used to check in on one’s home from anywhere with an internet connection
- Lixf Mini Light Bulb (\$30): smart light bulb that can turn, turn off, or be dimmed through voice control

Practical Uses

While smart home technology can be used for a wide range of tasks, the lists below highlight a few of the most common, and in particular those that will be most useful in a senior living setting.

- Voice control from anywhere in the home
- Cast Netflix, Hulu, Spotify or other streaming music and video services to home TV
- Set lighting schedules to suit time of day (e.g. lights on in the morning, dimmed lights at night)
- Easily set timers, make list, or set recurring alarms
- On demand news and weather, delivered by the home assistant
- Hands free, voice-activated video and voice calling
- Monitor home remotely with access to IP security camera

Conclusion

IoT (Internet of Things) technology is modular by design, so any initial setups could easily be scaled up or down to meeting future needs.

SERVICE EXCELLENCE

Just a reminder that the Service Excellence recognition slips are located to the right of the cubbies on the first floor. You can either put it in the suggestion box where they are located, in the drop box or you can give it to the Administrator directly.

It will then be forwarded along to a monthly drawing where we can be entered to win a prize. Thank you again for your continued support and assistance. Please let us know if there is anything that we can do to make your experience here at The Village of Hampton Meadows the best that it can be.

Congratulations!

ACCOUNTABILITY • LISTENING • RELATIONSHIPS • RESPECT

Friendly Reminders:

Please do not let in strangers. If they are not here to see you, then it is not your responsibility to let them in. There is a sign in the entry instructing them what to do to get in. They MUST be buzzed in. Your safety is our #1 concern.

Pets are NOT allowed in any of the amenity rooms including the laundry room. Please be courteous of your neighbors and follow our pet policy.

Negative gossip/conversations are unwelcome. The amenity rooms are for chatting and catching up with each other not making other people afraid of utilizing the rooms because of the negative chatter.

If you want to stop and chat positively, please do not stand in front of the laundry machines. Move your conversation to the lounge just outside the laundry room. Blocking the machines is discourteous to others who are trying to use them.

Remember to always be kind to one another. One simple act of kindness can go a long way. Help your neighbors and your friends if you see that they could use a helping hand. Offer some kind words of encouragement if you know that they are struggling with something in their lives.

Laughter is the Best Medicine

The Traffic Sign

Farmer John lived on a quiet rural highway. But, as time went by, the traffic slowly built up at an alarming rate. The traffic was so heavy and so fast that his chickens were being run over at a rate of three to six a day.

So one day Farmer John called the sheriff's office and said, "You've got to do something about all of these people driving so fast and killing all of my chickens."

"What do you want me to do?" asked the sheriff.

"I don't care, just do something about those crazy drivers!"

So the next day he had the county workers go out and erected a sign that said:

SLOW: SCHOOL CROSSING

Three days later Farmer John called the sheriff and said, "You've got to do something about these drivers. The 'school crossing' sign seems to make them go even faster."

So, again, the sheriff sends out the county workers and they put up a new sign:

SLOW: CHILDREN AT PLAY

That really made the drivers speed up even faster. So Farmer John called and called and called every day for three weeks.

Finally, he asked the sheriff, "Your signs are doing no good. Can I put up my own sign?"

The sheriff told him, "Sure thing, put up your own sign." He was going to let the Farmer John do just about anything in order to get him to stop calling every day to complain.

The sheriff got no more calls from Farmer John.

Three weeks later, curiosity got the best of the sheriff and he decided to give Farmer John a call. "How's the problem with those drivers? Did you put up your sign?"

"Oh, I sure did. And not one chicken has been killed since then. I've got to go. I'm very busy." He hung up the phone.

The sheriff was really curious now and he thought to himself, "I'd better go out there and take a look at that sign... It might be something that WE could use to slow down drivers..."

So the sheriff drove out to Farmer John's house, and his jaw dropped the moment he saw the sign. It was spray-painted on a sheet of wood:

NUDIST COLONY

Go slow and watch out for chicks!!

Funny Joke of the Day 1.

Gandhi walked barefoot his whole life, which created awful calluses on his feet. He also ate very little, making him frail and with his odd diet, he suffered from bad breath. This made him what?

Answer: A super-callused fragile mystic hexed by halitosis.

Funny Joke of the Day 2.

Diane buys a hundred goldfish. There are so many of them that she decides to keep them in her bathtub.

One day she invites her friend over to see all her beautiful goldfish. Lauren is impressed, and says, "They surely are beautiful, but what do you do when you want to take a bath?"

Diane replied, "Simple. I just blindfold them!"

Resident Updates**Satellite Television Update**

We currently subscribe to DirecTV for our TV viewing. As many of you are aware, we have had the same system for the last 10 years; since we first opened our doors. The signal that we receive to our satellite dish and to the receivers for the channels has been an analog signal. It has worked great for us through the years but as the technology ages, we are seeing our receivers going down and on a regular

basis lately. As of April 1st, 2019 all of the signals sent to the dishes will be in a digital format. They will no longer be sending out analog signals and therefore all analog systems will no longer be operational.

What that means for us is... We are currently working with our provider to upgrade our system to a digital system. We are trying to get this taken care of as soon as possible since we have been losing so many channels lately but we know for certain that it should be completed by April 1st.

We have been at the same price for the past 10 years and costs have gone up so an increase will be inevitable. Although I don't anticipate it being a significant increase; that too is not decided as of yet.

I will also at this point not be purchasing any more replacement receivers when a channel goes out due to the closeness of the upgrade.

What I will do, for your convenience, is see if there is a way that we can integrate the lost channel onto a channel that we may not have a large group watching. I will do my best to save what channels we can.

For instance, channel 23 was HGTV. The receiver for 23 stopped working so I moved HGTV to a different channel that was occupied by a sports network. Channel 23 will remain blank but the station that was there is just viewable elsewhere.

Things get worn over time. It happens everywhere. We are doing what we can to be sure that you always have the best possible service. If you have any questions during this transition, please call the office and I can assist you.
